Mandatory Masks at school

Comments *

Good evening,

I would just like to share my opinion on making and enforcing a rule that all students and staff must wear a mask at all times in school. As a family who has taken the virus very seriously and have lost family, friends and acquaintances we hope to finally return to the classroom and have a sense of normalcy. If this rule is not enforced, we would continue to be forced to find someone to care for our kids while we work because we wouldn't feel safe enough to send them back to school. This will cause financial strain on our family and many other families as well. Most of us don't have the choice to stay home and take care of the children. All kids have a right to attend school and by not enforcing masks, their right will be taken from them. Masks have proven effective multiple times and more effective when everyone wears them. At this point, we are all pretty used to wearing them so I don't see why this would be a topic of debate. I can understand being more lenient once all kids are offered the chance to be vaccinated because then, we have a choice to provide more protection for our children but right now masks are the only thing protecting them from potentially getting Covid.

Maybe a solution would be to take all kids and teachers who don't want to wear a mask and put them in classrooms together so everyone can be happy?

I hope we can stop the spread and continue to keep our children and family safe by enforcing the masks at school.

Thank you for your time,

Jackie Luu
