Masks In Schools

Comments \*

I 150% support universal masking in school for ALL individuals - regardless of their vaccination status. With the highly transmissible Delta variant and schools going back without any other mitigations such as physical distancing - we must protect our children who cannot yet be vaccinated by at the very least requiring universal masking in schools as recommended by the CDC, CDPH and American Academy of Pediatrics. The CDC has announced that fully vaccinated individuals that contract COVID-19 can and do transmit the virus to others. Not requiring universal masking in schools would be reckless.
