mask and vaccine/testing requirements

Comments *

Livermore is the least vaccinated city in Alameda County, and the delta variant is spreading. While the risk to my own kids is not great since both are fully vaccinated, one of my children does have a condition that, if he were to suffer a breakthrough case, he would have 3x the likelihood of dying as others without the condition (according to some studies). Moreover, kids under 12 have not been eligible to be vaccinated at all yet. Because of all this, I would strongly urge the School Board to adopt mandatory masking requirements for everyone on Livermore school campuses. I also would like to see either verification of vaccination or submission to regular Covid 19 testing, by all staff and students who are eligible to be vaccinated. All of our kids need to be back in school full time, and they can do it safely, if we take reasonable precautions and we all work together for the health and benefit of the school community.
