Re: 2024-25 Williams Settlement Monitoring Findings

Dear Superintendent Gibson,

California Education Code [§1240](#) requires that the Alameda County Office of Education (ACOE) staff visit the schools identified for 2024-25 Williams Settlement monitoring within the first four weeks of instruction to ensure that the following requirements are met:

- All students have access to standards-aligned instructional materials and textbooks;
- All students have access to school facilities that are clean, safe and functional; and there are no facility conditions that pose an emergency or urgent threat to the health or safety of pupils or staff;
- School Accountability Report Cards are properly posted and contain no indications of instructional material insufficiencies or outstanding facility needs; and
- Uniform Complaint Procedures are properly posted in the main office.

The accompanying report of all schools monitored in your Local Educational Agency during the 2024-25 school year is included for your information. *Any extreme facility deficiencies identified have been resolved and no additional action is required at this time.* A complete report on all Williams visits conducted in Alameda County will also be submitted to the County Board of Education as required by law.

Thank you for the support of your governing board, administration, and staff to ensure that each student has the appropriate materials for learning, safe classrooms and school environments, and qualified teachers.

Sincerely,

A handwritten signature in black ink that reads "Alysse Castro".

Alysse Castro  
Alameda County Superintendent of Schools
